

## Programmer

Do you enjoy working with code? Do you like creating solutions through computer applications? If so, considering applying for a programming position with Datatech. Our programmers work closely with each other, support personnel and customers to create programs, reports and scripts that make our users jobs easier. They are responsible for quality control of their projects and testing of code to ensure functionality.

### Education Required:

- High School Diploma
- Associate's or Bachelor's degree in Computer Science or equivalent education/experience

### Experience Required:

- One year of programming preferred
- Independent projects/apps a plus
- Experience with turning design specifications into working code
- Experience with multiple programming languages
- Experience in the agricultural industry a plus

### Knowledge/Skills Required:

- DataFlex experience a plus, willingness to learn new languages
- Javascript/HTMLS/CSS experience a plus for future projects
- Microsoft SQL Server and TSQL Query Language
- Excellent oral and written communication skills
- Strong problem solving and trouble shooting skills
- Attention to detail
- Self-motivation and time-management skills

### To Apply:

Please email [jobs@datatechag.com](mailto:jobs@datatechag.com) to let us know you are interested in a position. In your email, answer these questions:

- What type of career are you interested in?
- What do you know about Datatech?
- How can we best use your knowledge and skills?
- Are you looking for full-time or part-time work?
